

COMPANY: Liberty Media Corporation

JOB TITLE: Senior Financial Analyst (Full-time/Exempt)

LOCATION: Englewood, CO

The Liberty family of companies, located in south Denver, owns and invests in a broad range of media, communications, e-commerce, sports and entertainment businesses. Liberty Media owns interests in Sirius XM Radio, Formula One, Live Nation Entertainment, and The Atlanta Braves. Qurate Retail Group owns a broad array of multichannel retail, digital commerce, and other businesses and investments, including QVC, and Zulily. Finally, the Liberty Media team oversees Liberty Broadband, which owns a significant interest in Charter Communications, GCI Liberty, which owns GCI Communications and other cable assets and Liberty TripAdvisor, which owns a control interest in TripAdvisor. Liberty Media offers a competitive salary, travel opportunities and excellent benefits. The company was selected by the Denver Business Journal as one of the best companies to work for in Denver, among large companies.

Essential Functions (Other duties may be assigned):

The role of the Senior Financial Analyst will be to generate ideas, assist in financing our investments, develop reasoned and articulated recommendations to help us reach our business objectives, and provide thorough analytical support and financial/valuation modeling. This position requires working closely with legal, accounting, tax, and investor relations in addition to interaction with high-level company management. The Senior Financial Analyst will also assist our Corporate Development Department team, as needed, with valuation, analytical, and transaction support. The successful candidate will also assist in preparing presentations for our Board of Directors, executive management, investor meetings, and rating agencies as well as for potential investment and/or capital structure transaction opportunities, which will require well-articulated recommendations. The position's responsibilities will also include, in whole or in part, the following:

- Test reasonableness of investment banker pricing bids on derivatives or other financial engineering structures (e.g. equity, fixed income, interest rate swaps, foreign exchange)
- Conduct industry research and provide summary analysis
- Analyze business plans and develop projections for senior management
- Monitor debt and equity portfolios for pricing, news, research, and analyst estimates
- Assist in planning, managing and executing financing transactions including derivative instruments
- Perform capital structure, valuation and other analyses
- Ad hoc financial and other analyses

- Prepare finance meeting agendas for and participate in bi-weekly finance committee meetings with executive management

Qualifications:

Essential skills/qualifications include:

- Minimum of a bachelor's degree in finance, economics, or accounting
- 2 to 4 years of experience in investment banking, corporate finance, and/or capital markets and derivatives
- Experience within the Technology, Media, and Telecom sectors is a plus
- Proficiency in analytical thinking including the ability to understand and analyze business plans and develop projections
- Excellent interpersonal skills
- Project management experience
- Ability to synthesize and summarize market and industry research
- Conduct rigorous financial modeling and analysis
- Significant experience and proficiency with Excel and PowerPoint a must
- Ability to analyze and interpret financial statements
- Attention for detail and accuracy
- Derivatives experience a plus
